

Batch Lattes

3-5 Hours of Labor Saved Per Day!

GROUND CONTROL®

BATCH LATTES

Batch Lattes On Ground Control

Ground Control® is changing the way hundreds of cafes around the world serve espresso-based drinks. Our best in class flavor + consistency beats traditional espresso extraction in blind tests, and saves your cafe time and money.

Shorter Lines

10 SEC

Average serving time for Ground Control® Iced Lattes.

Faster Service

20%

Process 20% more iced drink sales per day.

Reduced Costs

\$5-7k

Reduce your espresso machine cost by grouphead. (\$5-7k average savings)

"Ground Control® not only helps with drinks going out faster, it also helps with our sales and with some labor costs too. It allows us to be more efficient during service while also providing better consistency for our drinks."

Jillian Bruce-Willis

Director of Operations

Brew Ha Ha! / Brandywine Roasters

Andrea Allen

2020 US Barista Champion

Onyx Co-Founder

"I'm always looking for consistency and accuracy in automation. By eliminating variables we can focus on the final product and executing hospitality at the highest level. Ground Control® has helped us achieve and exceed our expectations for concentrates and iced latte beverages."

"...Ground Control® opens up the boundaries of coffee drink creation allowing a new generation of innovators to redefine what a specialty coffee drink will look like in the future. We have found great use in seasonal drink creation via coffee concentrates, and feel we are just beginning to establish what is possible."
